

To Our Guests ~

*The hosts, staff, and volunteers of
Hospitality Homes hope we
have helped you.*

Since our beginning in 1983, we have grown steadily. Our goal is to reach every one of the patients and families who need us. To do this, we need your help.

Please consider donating to Hospitality—we rely on donations to continue to provide our service. Much of our funding comes from guests like you... people who have been touched by Hospitality and want to ensure that we can help the next person who calls.

Also, we hope that you will join with those who have come before you in remembering Hospitality each year during our mail appeal. Truly the future of this program depends upon the support of our guests.

We hope your stay in Boston goes well and we wish you and your loved ones good health.

Hospitality Homes
